Overview

Educating K-12 students in 21st century skills is about more than preparing them for work in the digital age; it's also about connecting with the whole student and transcending barriers. Learn how digital tools can be used daily and virtually or in-person to not only enrich intervention and instruction but also guide decision-making, streamline work, enhance communication, and promote happier students.

Like a favorite app or device, we can upgrade our daily practice with only a few modifications. We can improve time efficiency, productivity, and add additional style and elegance - promoting engagement, just by plugging in with the right
Integrate these lessons and assignments to your Career Counseling, Practicum, or Internship course. Students will build their Portfolio while learning some of the best educational technology tools to transform their practice and make their future school counseling program accessible to all students. Selected elements from the Amazon best-selling book, 50+ Tech Tools for School Counselors: How to Be More Engaging, Efficient, and Effective, will be used for a comprehensive learning experience training to give future school counselors an edge in many dimensions.

**Learning Objectives:**
- Evaluate educational technology tools to align with federal laws around student privacy, accessibility, and developmentally appropriate features
- Identify strategies to integrate educational technology tools into a comprehensive school counseling program
- Demonstrate knowledge of student rights and privacy when utilizing technology tools
- Discuss and compare benefits of a variety of educational technology tools to support student needs
- Design the foundation of an expansive school counseling portfolio with accessible lessons and activities
