

COLLABORATIVE LEADERSHIP

with Peter DeWitt

Collaborative leadership is needed to engage teachers, principals, students, and families. It combines transformational and instructional leadership, but includes ways to engage the whole school community and put the focus on learning.

Collaborative Leadership Growth Cycle

Collaborative Leadership is a series of one to five workshops focusing on research-based influences that will foster a supportive and inclusive school climate, increase academic and social-emotional learning, and maximize the efficacy of all school stakeholders. Each day focuses on developing those high-effect influences as well as fostering a more engaging school climate:

1.39	Collective Teacher Efficacy effect size
1.33	Self-reported Grades <i>Referred to as Assessment Capable Learners</i>
.74	Feedback effect size
.45	Parental Involvement <i>Referred to as Family Engagement</i>
.37	Professional Development Programs <i>Referred to as Professional Development</i>
.37	Principals/School Leaders <i>Referred to as Instructional Leadership</i>

WORKSHOP 1 Foundation Day

WORKSHOP 2 Collective Efficacy

WORKSHOP 3 The Power of Feedback on Learning

WORKSHOP 4 Student Engagement

WORKSHOP 5 Leadership Impact

The workshop series defines the meet, model, motivate framework for collaborative leadership, identifies the four types of leaders, and builds capacity with actionable steps to inspire real improvement with a collaborative, coaching model of leadership.
